

FAIRTRADE

Fairtrade is an alternative approach to conventional trade, based on a partnership between producers and consumers. It empowers farmers and workers in developing countries through improved terms of trade and the opportunity to improve the working and living conditions for themselves and their communities.

VANILLA GROWERS ASSOCIATION OF VAVA'U (VGA)

VGA led the development of the first Fairtrade certified vanilla supply chain from the Pacific. This process included rehabilitation of their vanilla gardens, standardisation of farming methods and curing techniques, as well as the development of their governance system and business practises. In partnership with their buyer Queen Fine Foods and Fairtrade ANZ, VGA delivers services to their members such as training, vanilla rehabilitation support, and access to a tools lending library. The association's goal is to develop a sustainable vanilla industry that maximises the benefits for growers and secures sustainable livelihoods for generations to come.

SAVAI'I COCONUT FARMERS ASSOCIATION (SCFA)

Located in rainforest of Savai'i, SCFA pioneered Fairtrade certification in Samoa. Based on their traditional social structures, the association has developed a strong and participatory governance system, through which it is developing its growing business. In partnership with their buyer Krissy Co. and Fairtrade ANZ, SCFA delivers services to its members such as training on farming methods, record keeping and social compliance. The association's goal is to revive the export coconut cream industry in the country while increasing members' income.
